

SECTION 12120A

TEMPORARY PLASTIC PAVEMENT MARKINGS

Shall conform to Form 816 Section 12.12 with the following modifications:

12.12.02 - Materials

Add the following sentence after the last paragraph:

Temporary raised pavement markers may be used as an alternate upon approval by the Engineer.

12.12.03 – Construction Methods

Add the following sentence after the last paragraph:

Temporary pavement markings shall consist of tape lines a minimum of 4” wide and 2’ long. The markings shall be placed in a skip line pattern approximately 20’ on center. Temporary directional dividing lines shall consist of a single broken yellow line. For center turn lanes, the temporary directional dividing lines should consist of single broken yellow lines. For multi-lane highways with a minimum 4 lane cross section, the temporary directional dividing line should consist of a double broken yellow line. Temporary markings for lane lines shall consist of a single broken white line. Temporary pavement markings should not be used to replace edge lines.
