

FREE Opioid Education and Family Support Groups

Opioid Education and Family Support Groups are being held throughout the state for adult and young adult (age 16 and older) family members and other loved ones of individuals who are misusing opioids (including heroin) or have an opioid use disorder. Meetings include an educational component, discussion and mutual support.

Topics may include basic information about opioid use disorder, overdose prevention, Medication Assisted Treatment, co-occurring mental health disorders, self-help groups for addiction and for co-occurring disorders, family dynamics, and self-care as well as other topics suggested by group members.
