

Title: Subsurface Sewage Disposal System Plan Review Fee For New Construction

Original Effective Date: July 1, 2003

Revised Date: January 2, 2017

**Policy:** A \$100.00 fee will be charged for the initial review of a subsurface sewage disposal system engineered design plan for all new construction.

**Purpose:** To off-set the cost of staff time reviewing numerous plans/designs and writing requests for alterations and/or more information.

**Procedure:** The first revision will be included in the initial \$100 engineered design plan fee on all new construction. Each additional revision thereafter will be charged a fee of \$25.
