Meriden City Code Section 207-10. (Meters installed by city; sealing; tampering prohibited; meter reading; sale of water.)
[Amended 8-16-2021]

A. All meters installed under Section 207-9 shall be properly sealed immediately upon their installation by an employee of the Water Division and shall not be interfered with or tampered with thereafter by any unauthorized person.

B. All broken meter seals shall be immediately reported to the City Water Division by the property owner. There shall be no meter resealing charges levied for broken seals that are reported by the property owner. If an employee of the Water Division finds an unreported broken meter seal, then a charge of Two hundred dollars (\$200.00) shall be levied for each meter resealing.

C. The minimum additional consumption charge for water and sewer during any billed period in which there is evidence that the meter was tampered with, bypassed or removed from the setting shall be as follows:

1. Single Family Residential: Four thousand (4,000) cubic feet.
2. Multi-Family Residential: Eight thousand (8,000) cubic feet.
3. Commercial or industrial: Twice the highest recorded consumption during any of the last six (6) billing periods.
