PURCHASING GUIDELINES

OVERVIEW

In accordance with policy, City purchases and contracts (including rentals and leases) will be made pursuant to these guidelines. Applicable competitive bidding categories, authorization limits, or contract award procedures will be based on unit cost, total purchase cost for consolidated bid items, or fiscal year aggregates in the case of blanket purchase orders or similar ongoing purchasing arrangements. Staging of purchases in order to avoid these competitive bidding procedures or authorization limits is prohibited.

SUBSECTION 1 - GENERAL PURCHASES

Purchases and contracts for supplies, equipment, operating and maintenance services, and construction projects will be made pursuant to the following guidelines:

A. Over-the-counter. Purchases of less than $10,000; although no specific purchasing requirements are established for this level of purchase, a competitive process should be used whenever practical.

B. Open market. Purchases between $10,000 and $24,999.99; three (3) quotes must be solicited by either the requesting Department or Purchasing.

C. Formal bids or proposals. Purchases in excess of $25,000 will be made pursuant to the formal bidding requirements established in Chapter VIII – C-1 of the City Charter.

SUBSECTION 2 - PROFESSIONAL CONSULTANT SERVICES

Contracts for consultant services will be awarded pursuant to the following guidelines.

A. Contracts for consultant services estimated to cost less than $10,000 may be awarded by the department head. Although no specific purchasing requirements are established for this level of contract, proposals should be solicited whenever practical. On-call lists have been established through an RFP process for many professional services, and it is recommended that these firms on the list be utilized. See Subsection 11

SUBSECTION 3 – UNAUTHORIZED PURCHASES

Except for emergencies or authorized exemptions, including the use of a P-Card, stated in these guidelines, no purchase of supplies, services or equipment shall be made without an authorized purchase order. Otherwise:

A. such purchases may be voided and not considered an obligation of the City.

B. invoices without an authorized purchase order may be returned to the vendor unpaid.

C. the person ordering the unauthorized purchase may be held personally liable for the costs of the purchase or contract.

Purchase orders shall be issued prior to ordering supplies, equipment and services and not “after the fact” for work already done or materials already ordered.
SUBSECTION 4 – RESPONSIBILITIES OF THE PURCHASING OFFICER

The Purchasing Officer is responsible for: 1) the procurement of general supplies, services and equipment; 2) the administration of the purchasing policy; and 3) the management of surplus City property. To perform these functions efficiently and assist departments, the Purchasing Officer shall:

A. Be charged with the responsibility and authority for coordinating and managing the procurement of the City’s general supplies, services and equipment from the lowest responsive and responsible bidder when required by this policy.

B. Ensure full and open competition on all purchases as required by this policy.

C. Identify, evaluate and utilize purchasing methods which best meet the needs of the City (i.e. cooperative purchases, blanket purchase orders, contractual agreements, etc.)

D. Assist all departments with research and recommendations in developing specifications; review specifications for completeness of information to ensure specifications are not unnecessarily restrictive.

E. Coordinate vendor relations, locate sources of supply, and evaluate vendor performance.

F. Recommend revisions to purchasing procedures as necessary and keep informed of current developments in the field of public purchasing.

G. Prescribe and maintain all forms and records necessary for the efficient operation of the purchasing function.

H. Act as the City’s agent in the transfer and disposal of surplus equipment and materials.

SUBSECTION 5 – RESPONSIBILITIES OF DEPARTMENTS

Departments are charged with the following responsibilities in the purchasing process:

A. To anticipate requirements sufficiently in advance to allow adequate time to obtain goods in accordance with the best purchasing practices.

B. To communicate and coordinate purchases within their own department and Purchasing.

C. To provide detailed, accurate specifications to ensure goods obtained are consistent with requirements and expectations.

D. To prepare requisitions in accordance with instructions so as to minimize the processing effort.

E. To inform the Purchasing Division of any vendor relations problems, shipping problems (i.e. damaged goods, late delivery, wrong items delivered, incorrect quantity delivered, etc.) verbally and in writing, and any situations which could affect the purchasing function.

F. To minimize urgent and sole source purchases and to provide written documentation when such purchases may be necessary.

G. To assist the Purchasing Division with the review of all bids received for compliance with specifications, and provide the Purchasing Division with written documentation regarding their findings.

H. To not “split” orders for the purpose of avoiding procurement requirements.
SUBSECTION 6 – VENDOR RELATIONS

It is to the City’s advantage to promote and maintain good relations with vendors. The Purchasing Division and operating department staff shall conduct their dealings with vendors in a professional manner and shall promote equal opportunity and demonstrate fairness, integrity and courtesy in all vendor relations. When feasible to do so, vendors within the City of Meriden should be utilized for supplies, services and equipment. Please be aware that a delay in processing payment adversely affects the City’s relationship with vendors and may ultimately cause the city to pay higher prices. The City of Meriden is an Affirmative Action/Equal Opportunity Employers. Small, Minority, Women and Disadvantaged Business Enterprises are encouraged to respond.

SUBSECTION 7 – PURCHASING METHODS

A. Requirements for certain purchasing dollar limits.

Purchasing dollar limits are “per order” or “per project.” This policy specifically prohibits splitting an order to circumvent the specified dollar limits. Departments shall contact the Purchasing Division to coordinate volume bids of repetitive requirements (i.e., the frequent purchase of items such as chemical, paper goods, etc., which annually exceed the specified limits for all departments).

1. Purchases of Less than $10,000 – Over the Counter
   For purchases of less than $10,000, the authority to award is the Department Head. Comparative pricing is not required but shall be used when practical. Prudent judgment shall be used at all times. All departments may purchase supplies, equipment, and services, of less than $10,000 without competitive bidding. A purchase order must be requested by the department to serve as a mechanism to encumber funds.

2. Purchases between $10,000 - $24,999.99 – Open Market
   For purchases $10,000-$24,999.99, all departments shall obtain three written competitive quotations whenever possible for purchases. The Purchasing Division can assist in this process. The department shall submit a requisition, which includes the recommended vendor, with all supporting documentation to the Purchasing Division. Supporting documentation shall include competitive price quotes obtained, names of vendors contacted, description of the items required, and certificates of insurance as applicable. The Purchasing Division shall review the recommendation and supporting documentation and may contact additional sources for quotation.

   The Purchasing Officer may award purchase to the lowest responsive and responsible bidder whose quotes fulfills the intended purpose, quality, and delivery needs of the solicitation, provided that an encumbered appropriation for that item exists. In lieu of awarding the purchase, the Purchasing Officer may reject quotes, or may negotiate further to obtain terms more acceptable to the City.

3. Purchases of $25,000 or more require a Formal Bid Process.
   -See Subsection 8

B. Blanket Purchase Orders

A Blanket Purchase Order is an agreement whereby the City contracts with a vendor to provide equipment or supplies on an as-needed and often over-the-counter basis. Blanket Purchase Orders provide a mechanism whereby items which are uneconomical to stock may be purchased in a manner that allows field operations timely access to necessary materials.
The Purchasing Division shall review Blanket Purchase Order requests based upon the following criteria:

1. Geographic location.
2. Responsiveness and capabilities.
3. Average dollar value and type of items to be purchased.
4. Frequency of need.

All Blanket Purchase Orders shall include the following information:

a. A general description of the equipment or supplies which may be charged.
b. The period of time the order will remain open, not to exceed one year ending on June 30 of the current fiscal year.
c. The maximum total amount which may be charged on the purchase order.
d. Items excluded from the purchase, if applicable.
e. Department name and phone number.
f. Identification of the department(s).
g. Account numbers to be charged.

Once a Blanket Purchase Order is issued to a vendor, any authorized department employee may contact the vendor directly to place orders per the terms and conditions specified in the Blanket Purchase Order.

C. Contract Purchase Orders

Contract Purchase Orders are the preferred method of purchasing repetitive-use items or services which may be common to several departments or within one department. Establishing Contract Purchase Orders provides a means of obtaining volume pricing based upon the combined needs of all departments, reduces the administrative costs associated with seeking redundant competitive bids and processing a Purchase Order each time an order is placed, and allows departments to order as needed, reducing the requirements to maintain large inventories of stock.

If a Contract Purchase Order exists, departments shall order all of their requirements from the successful vendor. No other source shall be used without prior approval of the Purchasing Officer. Departments shall submit, in writing to the Purchasing Division, any performance problem encountered immediately following the occurrence so that corrective action may be taken.

Contract Purchase Orders are annual and may include option for renewal for specific products, product types, or services at agreed upon prices or pricing structure and for a specified period of time.

D. Cooperative Purchases

The City may participate in cooperative contracts established by competitive bid through the State of Connecticut, and through its membership in the Capitol Region Purchasing Council, U.S. Communities, Sourcewell (NJPA), Capitol Region Education Council (CREC) Marketplace and other such groups which the City is eligible to participate in. On these contracts, commodities and contract services are awarded to specific vendors who successfully meet all bid requirements. When practical, participation saves the City the time of bidding for the same items, and allows the City to take advantage of the discounts offered to the State and other cooperatives due to their large buying power.

For cooperative purchase agreements up to $24,999.99, the authority to award is the Department Head; the Purchasing Division is available to assist. Cooperative purchase agreements of $25,000 or more must be reviewed by the Purchasing Officer for final approval.
E. Sole Source Purchases

Commodities and services which can be obtained from only one vendor are exempt from competitive bidding. True sole source purchases are extremely rare, but may include proprietary items sold directly from the manufacturer, items that have only one distributor authorized to sell in this area or a certain product has been proven to be the only product that has proven to be acceptable. All sole source purchases shall be supported by written documentation signed by the appropriate department head and forwarded to The Purchasing Division. Final determination that an item is a valid source purchase will be made by the Purchasing Officer. A bid waiver is required for all purchases over $25,000 (See Subsection 7 J. Bid Waivers below).

F. Emergency Purchases

Purchases may be made without competitive bidding when time is of the essence, and shall be made only for the following reasons:

1. To preserve or protect life, health, or property; or
2. Upon natural disaster; or
3. To forestall a shutdown of essential public services.

Since emergency purchases do not normally provide the City an opportunity to obtain competitive quotes, sound judgment shall be used in keeping such orders to an absolute minimum. In addition, the following requirements shall apply:

a. A completed purchase requisition shall be submitted to the Purchasing Division within two working days, or as soon as the information is available. All purchase requisitions for emergency purchases shall be signed by the appropriate department head.

b. Documentation explaining the circumstances and nature of the emergency purchase shall be submitted by the appropriate department head to the Purchasing Officer.

c. If the emergency purchase causes any budget line item to exceed the approved budget, it shall be the responsibility of the department requesting the purchase to obtain subsequent City Council approval for an additional appropriation or to make a transfer to cover the over budget amount.

d. A bid waiver approved by the Purchasing Officer, Finance Director and the City Manager (or either’s designated representative) is still required if an emergency exceeds the bid limits (See Subsection 7 J. Bid Waivers below).

G. Purchase Order Exemptions

Certain purchases are not readily adaptable to the open market and formal bidding process. These purchases are generally for items where the competitive bid process is not applicable or where a check is required to accompany the order. Following is a list of allowable exemptions:

Advertisements and Notices                           Property Rentals
Office Supplies from Preferred Vendor         Real Property/Easement Acquisition
Petty Cash Replenishment

Exemptions are limited to those items listed above. Departments may submit written requests for additional exemptions to the Purchasing Officer. If warranted, additional exemptions will be added to this list.

If a vendor requires a Purchase Order to process an order, the department shall submit a purchase order requisition to the Purchasing Division to initiate a purchase order.
H. Purchase Award

1. Lowest Responsive and Qualified Bidder
   a. Bids shall be awarded to the “responsive” and “qualified” bidder who submits the lowest bid in accordance with bidding requirements.
   b. In determining the lowest “responsive” bid, the following elements shall be considered in addition to price:
      (1) A responsive bid is one which is in substantial conformance with the requirements of the invitation to bid, including specifications and the City’s contractual terms and conditions. Bidders who substitute terms and conditions or who qualify their bids in such a manner as to nullify or limit their liability shall be considered.
      (2) Conformance with the requirements of the invitation to bid may also include providing proof of insurance, bonding if required, completing all forms, including references, and all other information as requested in the bid document.
      (3) The successful bidder must demonstrate the ability to successfully fulfill a contract, including rendering of subsequent and continuing service. Staff may request proof of financial resources, a list of current or previous customers, and other pertinent data. Such action may also be taken after receipt of bids.
      (4) A bidder may be determined to be non-responsive if a prospective bidder fails to furnish proof of qualifications when required.
   c. In determining the lowest “qualified” bidder, the following elements shall be considered in addition to price:
      (1) That the products offered provide the quality, fitness, and capacity for the required usage.
      (2) That the bidder has the ability, capacity and skill to perform the contract satisfactorily and within the time required.
      (3) That the bidder’s experience(s) regarding past purchases by the City or other public agencies demonstrates the reliability of the bidder to perform the contract.
      (4) When a bid is recommended to be awarded to other than the low bidder, written justification is required. The written statement, signed by the appropriate department head, shall be attached to the purchase requisition.

2. Rejection of Bids

The Purchasing Officer or the requesting department may recommend rejection of any or all bids if it is determined to be in the best interests of the City. Reasons for rejection may include, but are not limited to, the following: a bid is determined to be non-responsive, the number of bids received is inadequate, bids received are not reasonably uniform in price, bidder is determined to be in arrears to the City by debt or contract, bidder appears on a State or Federal debarment list, or the lowest bid received is deemed to be too high. The Purchasing Officer may, in any given case, reject all bids with or without cause and submit the supplies, equipment or service involved to a new bidding process. If all bids are rejected, the Purchasing Division may be authorized to re-solicit bids, negotiate a contract for the purchase, or abandon the purchase.
3. Tie Bids

In the event there are two or more responsible bidders, the decision will be based by the following, and in the following order:

1. The incumbent will be awarded the bid over that of another bidder.

2. In the case of a multi-item bid, if one bidder has been awarded other items from the same bid and the other party has not, the bidder with the multiple awards will be awarded the bid over that of another bid.

3. The bidder located in the State of Connecticut will be awarded the bid over that of another “out of state” bidder.

4. By coin toss. The winner of the coin toss will be awarded the bid over that of another bidder.

4. Meriden Based Business

The City of Meriden has adopted Code 3-13A which is a local preference for City based business. Any business with its principal place of business located within the boundaries of the City of Meriden is eligible. When determining the lowest responsible bidder, the Purchasing Department shall also consider any City based business which has submitted a bid not more than 10% higher than the low bid. Such City based business shall agree to accept the award at the amount of the low bid no later than 24 hours following the bid opening. This section does not apply where any State or Federal monies are expended.

I. Change Orders

Purchase Orders represent a contract between the City and the Vendor. Any substantial change to a Purchase Order shall be documented as a change order. Change Orders to Contracts shall be reviewed by the Purchasing Division and shall be approved by the Department Head and the City Manager. Changes to a Purchase Order will require a new Purchase Order for the additional amount. The Director of Finance may be required to sign off on certain Change Orders.

Shipping and handling may cause the purchase order to exceed the authorized purchase order amount. These items do not require a Change Order, even if they exceed 10% of the original purchase order amount.

For Construction – a formal change order to the contract will be issued, along with a new Purchase Order to cover Change Order dollar amount.

A change to a purchase order may be initiated by Purchasing for clarification or to decrease or delete items on a Purchase Order.

J. Bid Waivers

If the amount of a purchase exceeds the Charter threshold requirement for competitive bidding, the City may waive the requirement when the circumstances of a particular case do not permit sufficient time to fulfill the rules and regulations concerning competitive bids, or when a competitive bid is inappropriate or impractical.

The City carefully reviews all bid waiver requests to ensure that they meet the requirements of the City Charter. Before the City Manager will file a bid waiver with the City Council, the following procedure must be followed:

1. The Department Head will submit a draft bid waiver to the Purchasing Officer with all pertinent supporting documentation. A template Bid Waiver is available in a fillable format through the employee intranet site.
Purchasing Officer will meet with the Department Head requesting the bid waiver for review and to determine whether the request meets the requirements of the City Charter.

2. Following a successful review by the Purchasing Officer, the bid waiver will be presented to the Finance Director for signature. It is at the discretion of the Finance Director to request a meeting with the Purchasing Officer and Department Head for further clarification if necessary.

3. Following Finance Director Approval the bid waiver will be forwarded to the City Manager for final review and decision will be made as to whether it shall be approved.

4. All approved bid waivers are filed as a permanent record with the City Council.

5. Once a bid waiver has been approved, a purchase requisition should be prepared to begin the purchasing process.

**SUBSECTION 8 – QUOTE AND FORMAL BID PROCESS**

Except as otherwise exempted in the policy, supplies, services, and equipment with an estimated value of $10,000 to $24,999.99 shall be purchased following a Quote Process and purchases of $25,000 or more shall be made following a Formal Bid Process.

To initiate the quote/formal bid process, the department making the request shall provide specifications for the item to be purchased and documentation showing the existence of an unencumbered appropriation for the item in the current approved budget. The Purchasing Division or requesting department shall solicit informal/formal bids as prescribed.

Quotes may be faxed, e-mailed, or mailed to prospective bidders, or solicited over the phone. Formal bids shall be published at least once in a newspaper of general circulation as required by Charter, and if applicable, in appropriate trade publications. The date of publication shall be at least 10 days before the due date. All formal bids shall be sealed and shall be publicly opened and read at the date, time, and place indicated in the published notice.

Bids shall be reviewed for compliance with specifications by the requesting department. All deviations from the specifications shall be fully documented by the requesting department and the impact of the deviations on the performance or suitability of the bid item shall be detailed. Staff will prepare and forward a recommendation for approval of purchase. Quote awards shall be approved by the Department/Division Head.

Formal Bids – A letter of recommendation must be signed by the requesting Department Head and sent to Purchasing, who will make the formal award.

**SUBSECTION 9 – CREDIT CARD USAGE**

Under certain circumstances, the use of a City credit card may be the most appropriate method for certain purchases. The following policies and procedures are established to insure internal control and timely payment of charges.**

A. Failure to comply with established procedures may result in discontinuance of use by the employee/department.

B. All receipts must be turned in when credit card is turned in.

C. No personal items shall be charged on any City credit card.

**SEE P-CARD POLICY for greater detail.**
SUBSECTION 10 – SPECIFICATIONS

It is the responsibility of each department to provide detailed, accurate specifications when requisitioning supplies, equipment and services. Accurate specifications are essential for effective bidding.

A. Sole Source Specifications

Sole source specifications shall be avoided whenever possible, as they minimize or eliminate competition. The City Manager, Finance Director and Purchasing Officer may waive bidding requirements if sufficient written justification for a sole source purchase exists. An example of sole source is where equipment or supplies are required in order to be compatible with existing equipment or to perform a complex or unique function. Written documentation signed by the appropriate department head shall accompany the requisition for any sole source request over $25,000.

B. Standardization

Standardization of specifications for items common to several division and/or departments can facilitate the purchasing process. The Purchasing Division and departments shall work together to establish standard specifications for such items.

C. Brand Name, or Equal, Specifications

In purchasing equipment or supplies needed to be compatible with existing equipment, or to perform complex or unique functions, the Purchasing Officer may limit bidding to a specific product type or a brand name product.

Use of brand names in specifications shall be for the purpose of describing the standard of quality, performance, and characteristics the City desires and not be intended to limit or restrict competition. If a brand name is incorporated into a specification, a minimum of two acceptable brands shall be listed whenever possible and shall be followed by the statement “or approved equal” unless the sole source rule applies.

Using specifications provided by a specific manufacturer should be avoided, however, if used, the name of the manufacturer, model number, etc., should be indicated. The bid document shall clearly state that the use of the manufacturer’s specifications are for the sole purpose of establishing the level of quality desired. The Purchasing Officer reserves the right to determine and approve any product submitted as an “or equal.”

D. Vendor Assistance in Writing Specifications

There may be occasions when vendor assistance is required to develop a specification. Such specifications shall be written in general terms and the vendor shall be informed that the information they provide may be used to develop specifications for a competitive bid process. The vendor shall be allowed to submit a bid, but will not be given any preference over the other bids.

SUBSECTION 11 – PROFESSIONAL CONSULTANT SELECTION

A. Selection of Consultants for Professional Services (General):

1. The following criteria shall be used to determine approval authority for Professional Consultant Service Contracts:

   Contracts less than $10,000 may be awarded by Department Head through the use of a Purchase Order. Use of On-call Consultants shall be used, when practical.
Contracts between $10,000 and $24,999.99 On-call Consultants must be used, unless otherwise authorized by the Purchasing Officer. A formal contract must be prepared by the Purchasing Department.

For Contracts over $25,000, the department must consult with Purchasing Officer to see if the On-call list should be used or if a formal RFP is needed.

2. This policy specifically prohibits splitting a purchase to circumvent the limits set forth in item 1, above.

3. The appropriate department head shall prepare a scope of work consistent with budget and project authorization of the City Council. The Request for Proposal (RFP) shall outline the City requirements and project description. The list of solicited firms will be drawn from firms who, in the opinion of the Purchasing Officer, can perform the work. A Request for Qualifications may first be necessary if the required services are particularly specialized or if the qualifications of the available consultants are unknown. The list of solicited firms may be limited to a minimum of 3 to 5 due to time constraints or specialties involved.

4. The initial review of proposals shall be conducted by a panel, selected by the Purchasing Officer, who shall make a recommendation regarding which consultants should be invited to interview.

Formal interviews (for Contracts of $25,000 or more) will be conducted by a committee which deals with the subject matter of the proposal or an ad hoc committee shall be formed to conduct the oral interviews for selected consultants. The committee will make a recommendation to the Purchasing Officer for final selection.

5. Qualifications should be the determining factor in the selection of a professional consultant. Staff shall then negotiate the final fee based upon the agreed scope of work.

6. Consultants shall comply with all regulations and laws dealing with conflict of interest disclosure and reporting. Consultants shall not be engaged if a conflict of interest exists.

B. Selection of Consultants for Professional Services for Continuing Services:

1. Professional firms providing engineering, land surveying, transit, planning, environmental, auditing, landscape architecture or other services may be retained on a continuing basis to provide professional services. The department head, with the approval of the Purchasing Officer may contract on a project-by-project or on a retainer basis for additional work/services without going through the RFP and selection process. Every three-five years these arrangements shall be reviewed and every effort shall be made to receive proposals from at least three consultants to perform the same services. This is to ensure the City is receiving “best value.”

SUBSECTION 12 – SURPLUS PROPERTY

The Purchasing Officer is responsible for the transfer and disposition of surplus City property. “Surplus property” is used generically to describe any City property that is no longer needed or useable by the holding department. The Purchasing Officer has the authority to declare item(s) surplus.

Surplus property that may result from the termination of a lease agreement shall be specifically reported to the Purchasing Officer prior to the termination of the lease. The report shall include all information about the lease, including purchase price at the commencement of the lease, residual value at the end of the lease, the total payments through the end of the lease and the fair market value at the end of the lease. In determining the fair market value, each department shall document the methods used to make such determination including tools such as Kelly Blue Book, classified advertisements, and local vendors with similar products available.
Each department shall periodically review its equipment, material, and inventory, and shall promptly notify the Purchasing Department of any surplus property.

A. Methods of Disposition

The Purchasing Officer shall determine or approve one of the following methods of disposition that is most appropriate and in the best interests of the City.

1. Transfer to another department

Surplus property may be transferred between City departments. Departments wishing to transfer surplus property to or from another department shall complete the Surplus Property Form and submit it to the Finance Department for review.

2. Trade-In

Property declared as surplus may be offered as a trade-in for credit toward the acquisition of new property. All trade-in offers will be submitted for the review and approval of the Purchasing Division. If surplus property is to be applied to a Purchase Order, the trade-in value shall be itemized on the Purchase Order. The amount charged against the expenditure account will be the value of the purchase before application of the trade-in credit. The trade-in amount will be accounted for by the Finance Department.

3. Return to Manufacturer

Surplus property may, when possible, be returned to the manufacturer for buy-back or credit toward the purchase of new property.

4. Disposal

Surplus property may be offered for sale by the Purchasing Officer. All surplus property is for sale “as is” and “where is”, with no warranty, guarantee, or representation of any kind, expressed or implied, as to the condition, utility or usability or the property offered for sale. Appropriate methods of sale are as follows:

(a) Public Auction – Surplus property may be sold at public auction, including those online. Public Auctions may be conducted by City staff, or the City may contract with a professional auctioneer including professional auction services.

(b) Sealed Bids – Sealed bids may be solicited for the sale of surplus property. Surplus property disposed of in this manner shall be sold to the highest responsible bidder.

(c) Selling for Scrap – Surplus property may be sold as scrap if the Purchasing Officer deems that the value of the raw material exceeds the value of the property as a whole.

(d) Negotiated Sale – Surplus property may be sold outright if the Purchasing Officer determines that only one known buyer is available or interested in acquiring the property.

(e) No Value Item – Where the Purchasing Officer determines that specific supplies or equipment are surplus and of minimal value to the City due to spoilage, obsolescence or other cause or where the Purchasing Officer determines that the cost of disposal of such
supplies or equipment would exceed the recovery value, the Purchasing Officer shall dispose of the same in such a manner as he or she deems appropriate and in the best interest of the City.

(f) Donation – Occasionally.

B. Proceeds

Proceeds from the sale or trade-in of surplus property shall be returned to the General Fund.

SUBSECTION 13 – FEDERAL PROCUREMENT STANDARDS

This subsection incorporates updates from the 2018 National Defense Authorization Act (NDAA) enacted on December 12, 2017 effective upon the issuance of OMB Memorandum M-18-18 issued June 20, 2018.

Office of Management and Budget’s (OMB) Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (‘‘Uniform Guidance’’).

As part of the Federal Single Audit Report each fiscal year, the City’s independent auditors report on the City’s compliance under each major federal program, on its internal controls over compliance, and on its schedule of expenditures of federal awards as required by the Office of Management and Budget’s (OMB) Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (‘‘Uniform Guidance’’) and in accordance with the auditing standards applicable to financial audits issued by the Comptroller General of the United States. Management is responsible for compliance with federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

New guidance has been issued after an extended grace period which requires recipient and sub-recipient organizations to align their procurement policies and procedures to comply with the new Federal Grant procurement requirements. An entity with a fiscal year ending on June 30 will be required to implement the Uniform Guidance procurement standards on July 1, 2018 and be in compliance for their June 30th, 2019 year end audit. This Article incorporates updates from the 2018 National Defense Authorization Act (NDAA) enacted on December 12, 2017 effective upon the issuance of OMB Memorandum M-18-18 issued June 20, 2018. This Addendum confirms the City’s compliance with Uniform Guidance through its Purchasing Policies and procurement practices, and other practices, policies and procedures.

</table>
| 200.320 (b) | (b) Procurement by small purchase procedures. ($3,500 - $150,000)  
 2018 NDAA increased the threshold to:  
($10,000 - $250,000) Small purchase procedures are those relatively simple and informal procurement methods for securing services, supplies, or other property that do not cost more than the Simplified Acquisition Threshold. If small purchase procedures are used, price or rate quotations must be obtained from an adequate number of qualified sources. |
  
  City Purchasing Guidelines:  
  Subsection 1. General Purchases, B – Open Market.  
  The City of Meriden threshold for small purchases complies - $10,000 - $24,999. |
| 200.320 (c) (i – iii) | (c) Procurement by sealed bids (formal advertising). (Over $150,000)  
  2018 NDAA increased the threshold to:  
(Over $250,000) Bids are publicly solicited and a firm fixed price contract (lump sum or unit price) is awarded to the responsible bidder whose bid, conforming to all the material terms and conditions of the invitation for bids, is the lowest in price. The sealed bid method is the preferred method for procuring construction, if the conditions in paragraph (c) (1) of this section apply.  
  
  (1) In order for sealed bidding to be feasible, the following conditions should be present:  
  
  (i) A complete, adequate, and realistic specification or purchase description is available;  
  (ii) Two or more responsible bidders are willing and able to compete effectively for the business; and  
  (iii) The procurement lends itself to a firm fixed price contract and the selection of the successful bidder can be made principally on the basis of price.  
  
  (2) If sealed bids are used, the following requirements apply:  
  
  (i) Bids must be solicited from an adequate number of known suppliers, |
  
  City Purchasing Guidelines:  
  Subsection 1. General Purchases, C – Formal Bids or Proposals.  
  The City of Meriden threshold for sealed bids complies - $25,000 or over. |

<tr>
<td>Appendix II (E)</td>
<td>(E) Contract Work Hours and Safety Standards Act (40 U.S.C. 3701–3708). Where applicable, all contracts awarded by the non-Federal entity in excess of $100,000 that involve the employment of mechanics or laborers must include a provision for compliance with 40 U.S.C. 3702 and 3704, as supplemented by Department of Labor regulations (29 CFR Part 5). Under 40 U.S.C. 3702 of the Act, each contractor must be required to compute the wages of every mechanic and laborer on the basis of a standard work week of 40 hours. Work in excess of the standard work week is permissible provided that the worker is compensated at a rate of not less than one and a half times the basic rate of pay for all hours worked in excess of 40 hours in the work week. The requirements of 40 U.S.C. 3704 are applicable to construction work and provide that no laborer or mechanic must be required to work in surroundings or under working conditions which are unsanitary, hazardous or dangerous. These requirements do not apply to the purchases of supplies or materials or articles ordinarily available on the open market, or contracts for transportation or transmission of intelligence.</td>
